

## **Executive Orders & Internment Camps:**

from Richard Anthony's work March 6, 2014

The ground work has already been laid, in the event of a national emergency, with a mere stroke of Obama's pen this is how martial law could play out. This is, in part, what Justice Antonin Scalia referenced last month. Executive orders already in place in the event of a national crisis:

### **EXECUTIVE ORDER 10990**

Allows take-over of all modes of transportation, control highways and seaports.

### **EXECUTIVE ORDER 10995**

Allows seizure and control communication media.

### **EXECUTIVE ORDER 10997**

Allows take-over of all electrical power, gas, petroleum, fuels and minerals.

### **EXECUTIVE ORDER 10998**

Allows seizure of all means of transportation, including personal cars, trucks or vehicles of any kind and total control over all highways, seaports, and waterways.

### **EXECUTIVE ORDER 10999**

Allows take-over of all food resources and farms.

### **EXECUTIVE ORDER 11000**

Allows mobilization of civilians into work brigades under government supervision.

### **EXECUTIVE ORDER 11001**

Allows take-over of all health, education and welfare functions.

### **EXECUTIVE ORDER 11002**

Designates Postmaster General to operate a national registration of all persons.

### **EXECUTIVE ORDER 11003**

Allows take-over of all airports, aircraft, including commercial aircraft.

### **EXECUTIVE ORDER 11004**

Allows Housing and Finance Authority to relocate communities, build new housing with public funds, designate areas to be abandoned, and establish new locations for populations.

### **EXECUTIVE ORDER 11005**

Allows take-over of railroads, inland waterways and public storage facilities.

### **EXECUTIVE ORDER 11051**

Specifies responsibility of the Office of Emergency Planning and authorizes all Executive Orders be put into effect in times of increased international tensions and economic or financial crisis.

### **EXECUTIVE ORDER 11310**

Grants authority to the Department of Justice to enforce plans set out in Executive Orders, to institute industrial support, to establish judicial and legislative liaison, to control all aliens, to operate penal and correctional institutions, and to advise and assist the President.

### **EXECUTIVE ORDER 11049**

Assigns emergency preparedness function to federal departments and agencies, consolidating 21 operative Executive Orders issued over a fifteen year period.

### **EXECUTIVE ORDER 11921**

Allows the Federal Emergency Preparedness Agency to establish control over mechanisms of production and distribution, of energy sources, wages, salaries, credit and flow of money in U.S. financial institution in any undefined national emergency. It also provides when a state of emergency is declared by President, Congress cannot review action for six months. The Federal Emergency Management Agency has broad powers in every aspect of the nation. General

Frank Salzedo, chief of FEMA's Civil Security Division stated in a 1983 conference that he saw FEMA's role as a "new frontier in the protection of individual and governmental leaders from assassination, and of civil and military installations from sabotage and/or attack, as well as prevention of dissident groups from gaining access to U.S. opinion, or a global audience in times of crisis." FEMA's powers were consolidated by President Carter to incorporate the...

**National Security Act of 1947** which allows for strategic relocation of industries, services, government and other essential economic activities, and to rationalize requirements for manpower, resources and production facilities.

**1950 Defense Production Act** which gives the President sweeping powers over the economy.

**Act of August 29, 1916** which authorizes the Secretary of the Army, to take possession of transportation systems to transport troops/material/or any other purpose related to the emergency.

**International Emergency Economic Powers Act** which enables the President to seize property of a foreign country or national. These powers were transferred to FEMA in 1979.

There over 800 prison camps in the United States, all fully operational and ready to receive prisoners. They are all staffed and surrounded by full-time guards, but mostly empty. These camps are to be operated by FEMA (Federal Emergency Management Agency) should Martial Law be implemented and all it would take is a presidential signature on a proclamation and the attorney general's signature on a warrant to which a list of names is attached.

**The Rex 84 Program** was established reasoning that if a "mass exodus" of illegal aliens crossed the Mexican/US border, they would be quickly rounded up and detained in detention centers by FEMA. Rex 84 allowed military bases to be closed down and to be turned into prisons.

**Operation Cable Splicer and Garden Plot** are two sub programs which will be implemented once Rex 84 is initiated. Garden Plot is a program to control the population. Cable Splicer is a program for orderly takeover of state and local governments by the federal government. FEMA is the executive arm of the coming police state and will head all operations. Presidential Executive Orders already listed on the Federal Register are part of the legal framework for this operation. Camps all have railroad facilities and roads leading to/from detention facilities. Many also have an airport nearby. A majority of camps can house 20,000 prisoners. Currently, the largest is just outside Fairbanks, Alaska. The Alaskan facility is a massive mental health facility that can hold approximately 2 million people. Where are the FEMA camps? Here are locations:

#### **ALABAMA**

Opelika– Military compound either in or very near town.

Aliceville– WWII POW German camp – capacity 15,000

Ft. McClellan (Anniston)– Opposite side of town from Army Depot

Maxwell AFB (Montgomery)– Civilian prison camp established under Operation Garden Plot, currently operating with support staff and small inmate population.

Talladega– Federal prison "satellite" camp.

#### **ALASKA**

Wilderness– East of Anchorage. No roads, Air & Railroad access only. Estimated capacity of 500,000. Projection: Forced labor camp.

Elmendorf AFB– Northeast area of Anchorage at far end of base. Garden Plot facility, as well as a Circular Disposed Antenna Array (CDAA) used for High Frequency Direction Finding (HFDF) covering 2 to 32 Megahertz operated by the United States Navy.

Eielson AFB– Southeast of Fairbanks. Operation Garden Plot facility.

Ft. Wainwright– East of Fairbanks

Terminal Island–Long Beach– next to naval shipyards operated by ChiCom shipping interests. Federal prison facility located here.

Ft. Irwin– view 2 from higher up– view 3 from higher up with Edwards AFB, George AFB and MCLB Barstow and Ft. Irwin in perspective– Ft. Irwin is a FEMA facility near Barstow. Base is designated inactive but staffed. Surrounding support from Edwards AFB, George AFB, and MCLB Barstow indicates high importance. MCLB Barstow has a mark on its helicopter pad that looks like an Iron Cross. Check it out. Another view. Irwin- a remote mountain region south of Death Valley National Monument, inactive, but a camp approx. 30 miles from I-15 in Barstow.

McClellan AFB closed– capacity of 30,000 – 35,000

Sacramento Army Depot (SAAD)- was U.S. Army support operated as repair center for high-tech military hardware, night vision goggles, electronic circuit boards, and radium-dial instrumentation. 1988 Base Closure and Realignment Commission closed. March 3, 1995- officially closed. Fall, 1994, Packard Bell whose Northridge plant was damaged by an earthquake relocated a 3,000 employee assembly plant/distribution center to Depot; April, 1996, Packard Bell had 3,500 employees, down from 5,000 in August 1995; February 1998 there were

3,100 employees; October 1998, 3,400 employees. This is the only Packard Bell manufacturing plant in the U.S. In mid-2000, Packard Bell NEC, Inc. announced it would shut down all manufacturing operations by year's end and lay-off 1,400 of its 1,550 workers at the Depot.

### **OTHER LOCATIONS IN THE UNITED STATES**

There are many other locations not listed above, but due to space and time needed to verify, could not be included. Virtually all military reservations, posts, bases, stations and depots can be considered highly suspect; "Regional" and "International Airports" under federal jurisdiction; Mental hospitals, closed hospitals, nursing homes, closed military bases, wildlife refuges, state prisons, toxic waste dumps, hotels and other areas. The likelihood of a site being suspect increases with transportation access, including airports/airstrips, railheads, navigable waterways and ports, interstate and US highways. Some facilities are "disguised" as industrial/commercial properties, camouflaged or wholly contained inside large buildings (Indianapolis) or factories. Many inner-city buildings left vacant during de-industrialization of America have been quietly acquired/held, sometimes retrofitted. Previous article included DHS Fusion Center Intelligence Officers/Regional Directors/contact Info.
